These facilities are professionally staffed with Licensed/Certified Athletic Trainers (ATC). ATCs are health care professionals who specialize in preventing, recognizing, managing and rehabilitating injuries that result from physical activity. ATCs **do not** take the place of physicians. ATCs work in cooperation with physicians, as well as athletic administrators, coaches and parents, to provide health care services for student-athletes.

Please know that rehabilitation services are available to every student-athlete during the school year. Please contact the above listed ATCs for appointments and further details.

Regards,

India Weaver, MS, ATC
