

**TO:** AP Calculus BC Students for 2007-2008

**FROM:** Mrs. Halfacre

Take the information sheet home, read it carefully, sign it, and have your parents sign it. Bring the signed portion back to school and hand to me in room 140. You may keep the information.

You have signed a contract accepting your responsibility for this class. This was done so you will realize what the requirements are while you still have time to change your mind, if necessary. My main concern is that you have the commitment to the course to succeed in passing the AP Exam in May. If you do not, you need to reconsider sitting through the class. The class is constructed in such a way that if you are unable to pass the exam, you will more than likely not do well in the class. The administration does not want a lot of students coming to them in the fall and dropping out of the class, so if you do feel the need to drop the class, do it before July.

*A copy of the contract is on the calculus website.*

### **SUMMER WORK**

Go to the website and

Click on *AP Calculus*

Click on *Lessons*

Click on *Summer Work*

***Follow instructions there***

If you need more information, you may e-mail me during the summer:

[halfacresandral@mcsk12.net](mailto:halfacresandral@mcsk12.net)

or use the information on the website:

<http://www.mecca.org/~halfacre/MATH/home.htm>

You **will** have a **test** the **first** week of school covering all this material, so do your best to know it well. You will turn in your summer work the day you take the test. We should be able to actually start in chapter 3 in the textbook.

Enjoy your summer, but don't forget your mathematics! I'm really looking forward to working with you again.

Mrs. Halfacre
