

TO: Pre-AP Precalculus Students for 2007-2008

FROM: Mrs. Halfacre

Take the information sheet home, read it carefully, sign it, and have your parents sign it. Bring the signed portion back to school and put it in my mailbox in the main office. Be sure you deposit it *under* my name. You may keep the information.

This is being done so you will realize what the requirements are while you still have time to change your mind, if necessary. My main concern is that you have the commitment to the course to succeed. If you do not, you need to reconsider sitting through the class. The administration does not want a lot of students coming to them in the fall and dropping out of the class, so if you do feel the need to drop the class, do it before July.

SUMMER WORK

Go to the website: <http://www.mecca.org/~halfacre/MATH/home.htm>

Click on *Precalculus*

Click on *Lessons*

Click on *Summer Work*

Follow Instructions there.

Keep the work you do to return to me in the fall. I welcome questions through email. If I am out of town or otherwise indisposed, I will answer your question as soon as I am able.

Summer work will keep your mind thinking mathematically and will let us get ahead just a bit as a class. The work I have included is from the prerequisite chapter in the precalculus textbook. Do all your work on notebook paper to be turned in to me at the beginning of the school year. This will be your first homework grade of the year. You **will** be given a **test** during the first week on this material. Your summer work is to be turned in on the test day.

If you need any more information, you may e-mail me during the summer:

halfacresandral@mcsk12.net

or use the information on the website: <http://www.mecca.org/~halfacre/MATH/home.htm>

Enjoy your summer, but don't forget your mathematics! I'm really looking forward to working with you.

Mrs. Halfacre
